EXPLORING THE HISTORY AND TEACHINGS OF THE EARLY RESTORATION

PROVO, UTAH, AND SALT LAKE CITY—This volume explores events and teachings of the early years of the restoration of The Church of Jesus Christ of Latter-day Saints. Featuring scholars from Brigham Young University, the Church History Department, and the Joseph Smith Papers, the collection of prominent materials previously produced by the BYU Religious Studies Center is designed as a companion to personal and family study of the Doctrine and Covenants and Church history. Chapters explore Joseph Smith's accounts of his First Vision, the translation of the Book of Mormon, and the restoration of priesthood power. Doctrinal teachings about consecration, Zion, the kingdoms of glory, and work for the dead are also investigated, as are harrowing experiences in Liberty and Carthage Jails and the exodus to the West.

By exploring anew the first several decades of the Restoration, readers

will witness the growth and development of Joseph Smith from a boy seeking forgiveness and direction while laboring on his family's farm into a prophet of God who translated ancient records, received divine authority from heavenly messengers, and organized a church that now spans the world. Triumphs in understanding the nature of God, the salvation available through Jesus Christ, and the futurity of eternal relationships are explored alongside tragedies in jails in Missouri and Illinois. Challenging practices like plural marriage and restrictions on priesthood and temple blessings based on race are examined, as are the profound ways that the gospel message and its eternal rewards are made available to all.
