

## APPENDIX B

# LEADERS WITH TIES TO THE COLONIES

During his 1997 visit, President Gordon B. Hinckley was impressed by the large number of Church leaders who had ties to the Mormon colonies in Mexico. The following lists show that the small group of faithful Saints in the colonies has continued this pattern. These lists contain some men who themselves were not from the colonies but whose wives were. The wife is typically an integral part of the leadership team, such as those who served as matrons when their husbands were called as temple presidents.
